## Portfolio

# About Me

I am Hsu Ka An a.k.a Robert. I am a third generation Indian Chinese and an HFI - Certified Usability Analyst .

I have been in the UX Role since the last 6 years. I am currently working as a Sr. UX Designer in Quantum Inventions, a company that deal with Digital Mobility Solutions like GPS and Logistics Tracking. Prior to that I worked in Web Spiders Pvt. Ltd.

Beside work:

- I am [an avid hoarder of visual ideas](#)
- I do write some time at [my Blog site](#)
- I [help my fellow Uxer's to find their way in the UX Industry.](#)
- I am also an active member of the [Indian Chinese Association](#) and lead the team in organising various cultural events.

# EARLY ESSENTIAL CARE MOBILE APP

for World Health Organisation – Western Pacific Region

## PROJECT BRIEF

Provide health professionals with a user-friendly, evidence-based protocol to essential newborn care – focusing on the first hours and days of life.

## DURATION

3 Months

## THE CHALLENGE

To convert their current Early Essential Care PDF Manual to a User Friendly Mobile App that can be used by skilled birth attendants including midwives, nurses and doctors during the critical first hour of child birth.

## PLATFORM

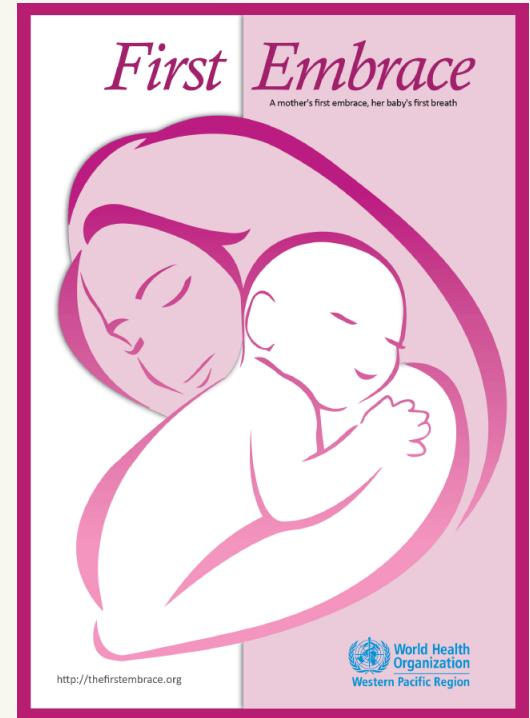

- iOS: iPhone & iPad
- Android: Phone & Tablet

## MY ROLE

- Lead the analysis of Tender Requirement
- Propose a Design Solution which translated into us winning the tender

## OUTPUT

High Fidelity Prototype in InVision App

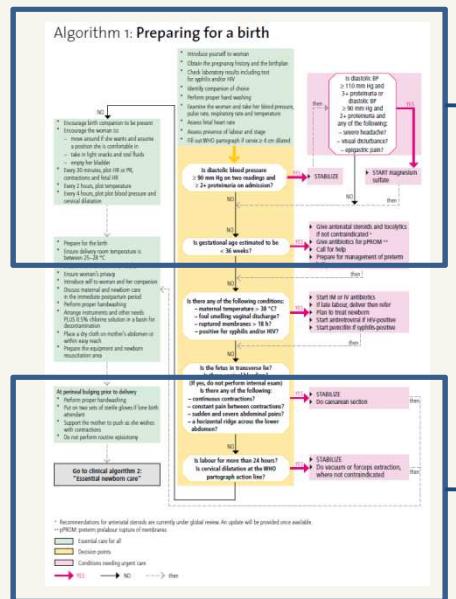

EARLY ESSENTIAL NEWBORN CARE  
Clinical practice pocket guide

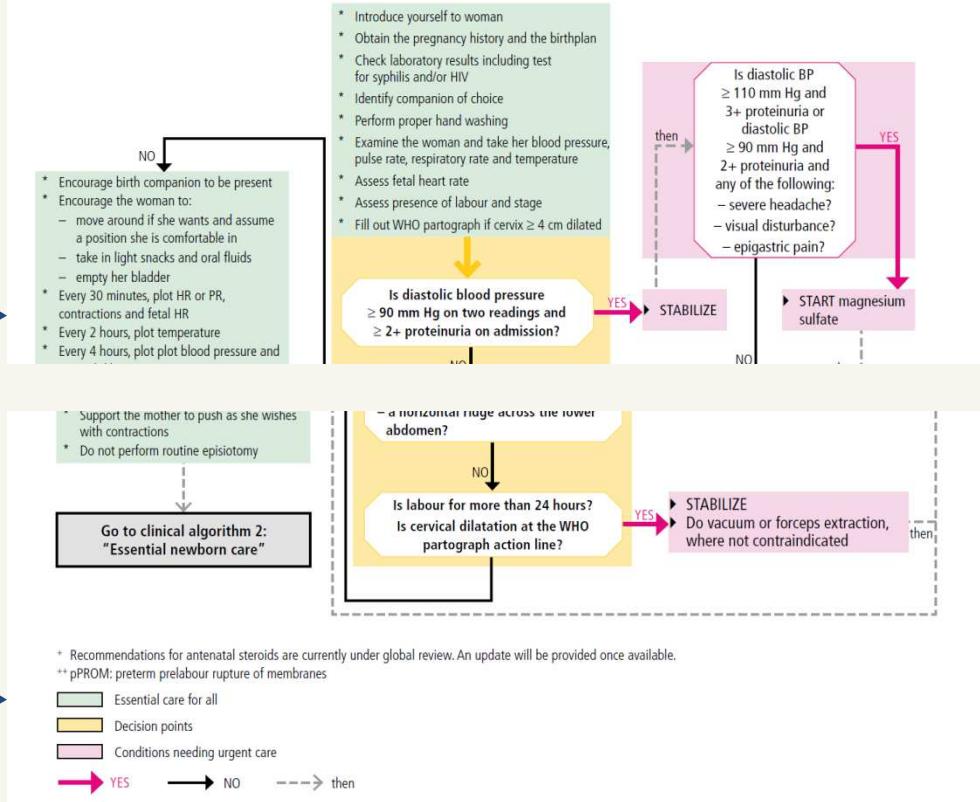

# The Challenge

To convert the Algorithms which was in the form of a PDF Manual to an easy to use interactive app.

PDF

### Algorithm 1: Preparing for a birth

# The Solution

Proposed a solution that keeps the essence of original PDF Chart Form including the colour usage and the overall structure of the manual. This reduce the learning curve for the user transitioning from the PDF Manual.

## THE HOME SCREEN

## THE ALGORITHM SCREEN

**Algorithm 1: Preparing for a birth**

Module Title → **1. Preparing for a birth**

Easy Access to Previous Screen\* → **Is diastolic blood pressure...**

Also serves as a re-affirmation of previous answer provided

**ALGORITHM SCREEN** → **Is gestational age estimated to be < 36 weeks?**

All Colour Code shifted to outline, to improve text readability even in low light condition.

All Essential Control in the middle lower bottom end of the screen for easy one handed use

Decision Point → **NO** **YES** **YES**

\* Value add proposed by me

**Module Title** → **1. Preparing for a birth**

**Easy Access to Previous Screen\*** → **Is diastolic blood pressure...**

**ALGORITHM SCREEN** → **Is gestational age estimated to be < 36 weeks?**

**All Colour Code shifted to outline, to improve text readability even in low light condition.**

**All Essential Control in the middle lower bottom end of the screen for easy one handed use**

**Decision Point** → **NO** **YES** **YES**

## LIVE MIC - MOBILE APP

for Web Spiders Pvt. Ltd. (In-House Product)

### PROJECT BRIEF

Use Attendee's Phone as Microphone to interact speakers during Events & Conferences

### DURATION

3 Months

### THE CHALLENGE

To design an app which would connect to the Event PA System and be used by Attendees to speak to the speakers. Instead of passing the mic around, the Attendees can use their own phone as mic to address the speaker and other event attendees.

### PLATFORM

- iOS: iPhone & iPad
- Android: Phone & Tablet

### MY ROLE

- Propose a Design Solution for both the App and CMS End

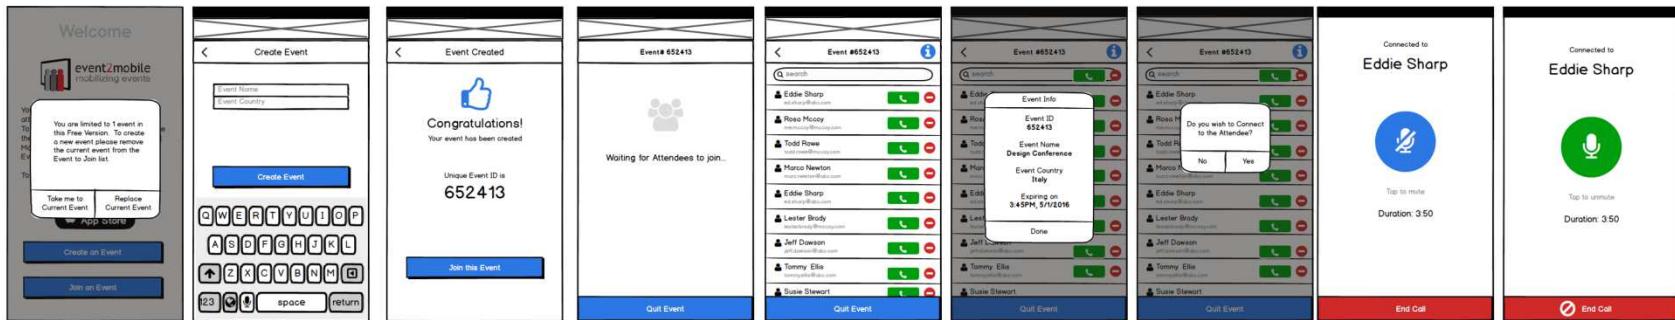

### OUTPUT

- Low Fidelity Wireframe in Balsamiq
- High Fidelity Prototype in InVision App

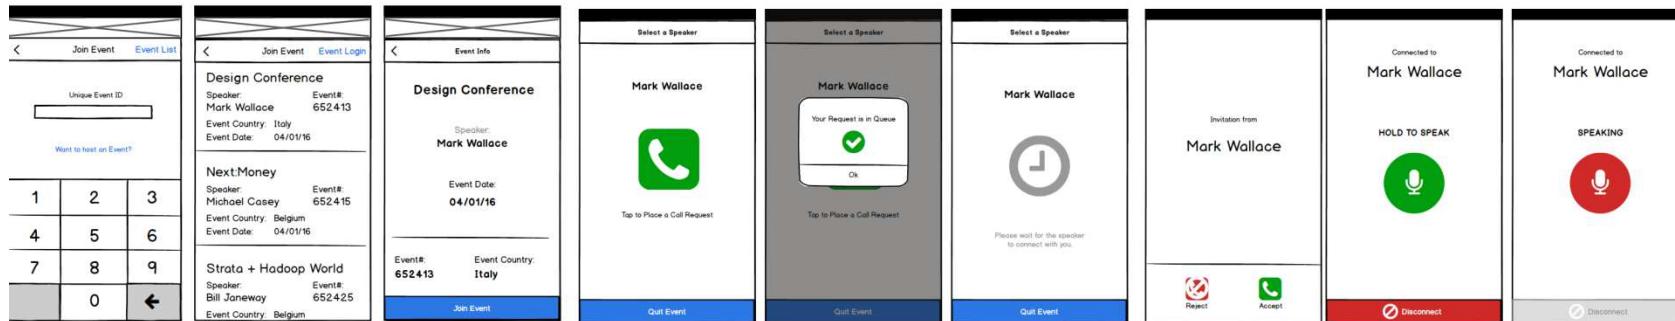

# The Wireframing

Quick Setup and Easy to Use App

## SPEAKER SCREEN FLOW

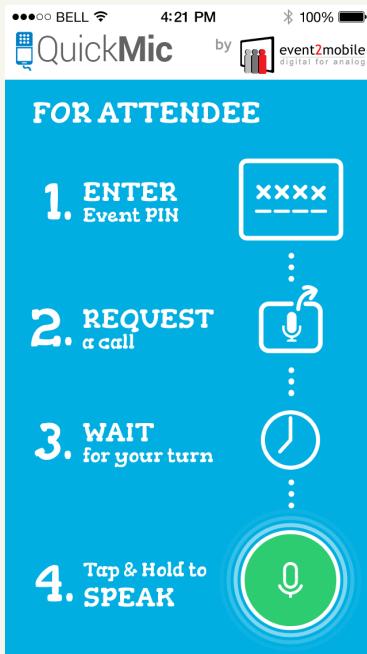

## ATTENDEE SCREEN FLOW

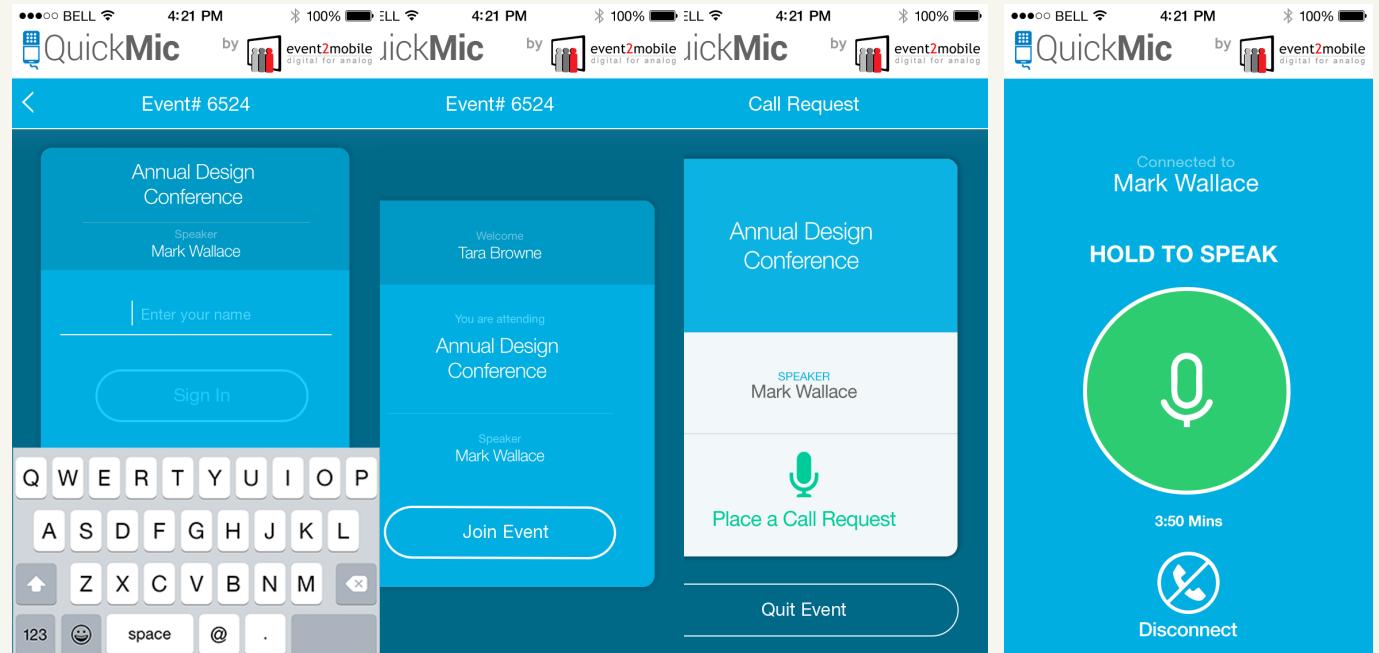

# The Solution

Proposed a solution that keeps the essence of original PDF Chart Form including the colour usage and the overall structure of the manual. This reduce the learning curve for the user transitioning from the PDF Manual.

## WELCOME SCREEN

## THE ATTENDEE CALL SCREENS

# FORM BUILDER - WEB APPLICATION

for Leading Automobile Company

## PROJECT BRIEF

To design a web application that will allow users to build and publish Forms.

## DURATION

2 Months

## THE CHALLENGE

To build a form builder web application that will allow users to build different type of Multilingual Forms that can be published to websites.

## PLATFORM

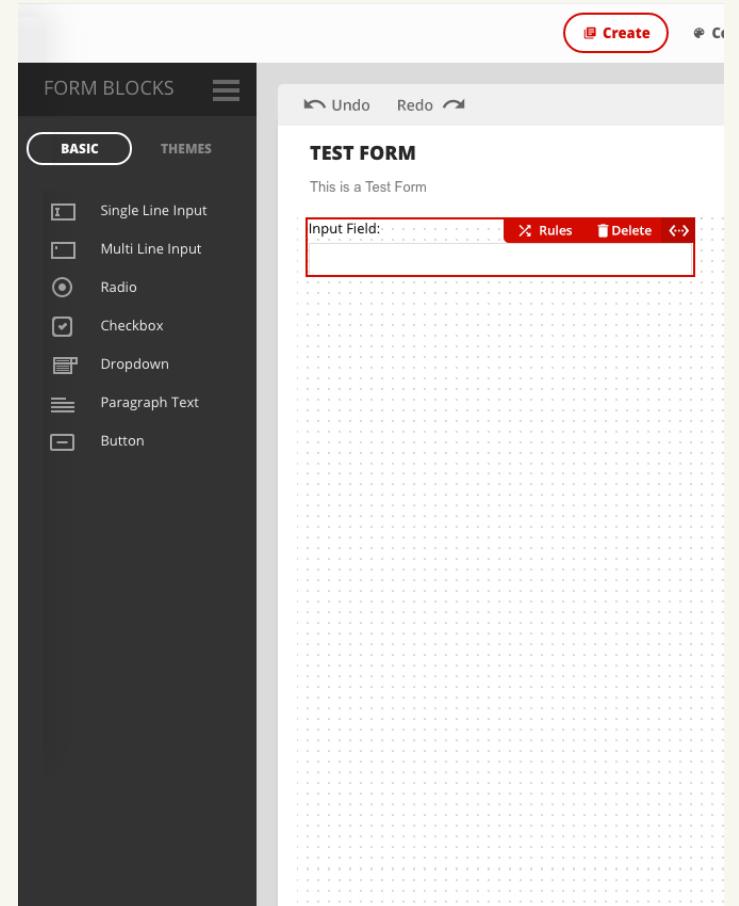

- Web Application

## MY ROLE

- Work with the development team and client to come up with a design solution and screenflow for the application

## OUTPUT

- Low Fidelity Wireframe in Balsamiq
- Final Screen Design

# KID STOP - WEBSITE

for Children Science Centre, Singapore

## PROJECT BRIEF

Design website to Ignite the love for science and be a marketing tool to increase awareness of CSC's offerings and drive visitorship to CSC (primary objective) and its sister attractions (secondary objective).

## DURATION

2 Months

## THE CHALLENGE

A Responsive Website that needs to be both engaging for kids as well as push CSC's Offering to Kid's Parents.

## PLATFORM

- Responsive Website

## MY ROLE

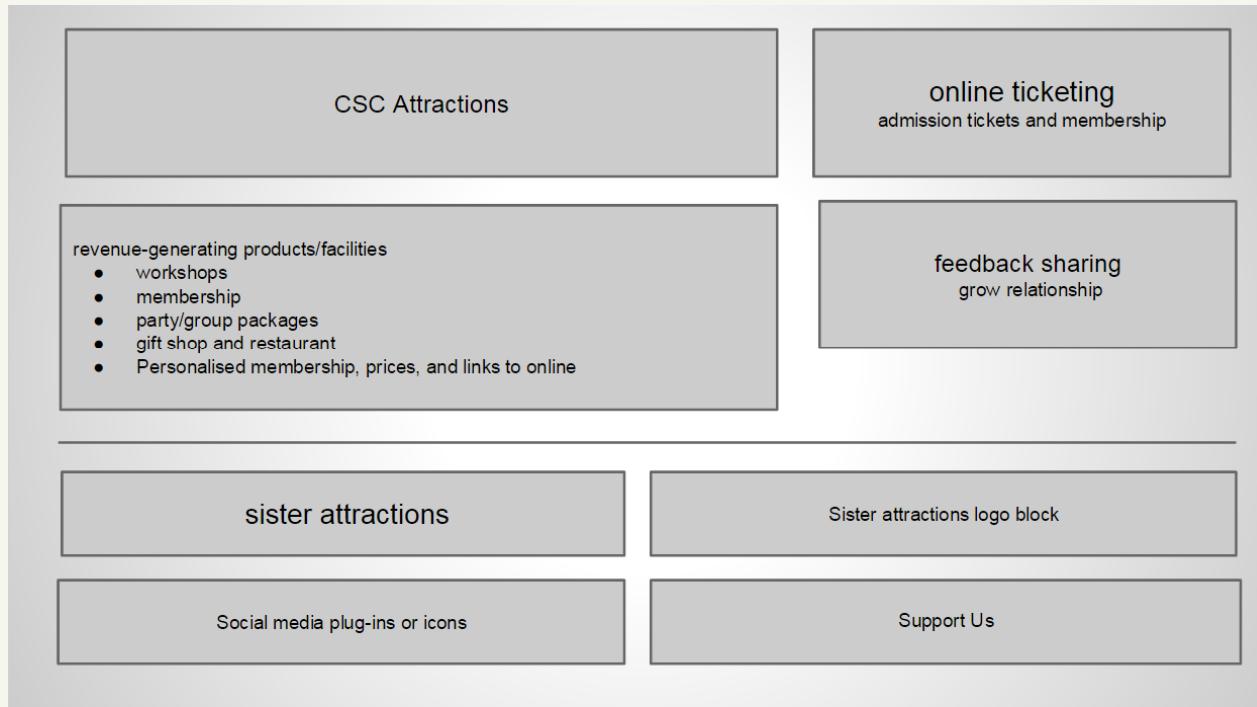

- Lead the analysis of Tender Requirement
- Propose a Design Solution which translated into a winning tender

## OUTPUT

- Low Fidelity Wireframe in Google Slides
- Final Screen Design

# The Wireframing

## SITE OBJECTIVE

- Fun resources for their children
- Feedback sharing: encourage repeat web visits and grow relationship with CSC.
- Be a marketing tool to increase awareness of CSC's offerings and drive visitorship to CSC (primary objective) and its sister attractions (secondary objective).
- Increase awareness of revenue-generating products/facilities (eg: workshops, membership, party/group packages, gift shop and restaurant etc) to drive sales and to encourage online ticketing (admission tickets and membership).

# Final Screen Design

## SITE PRIMARY OBJECTIVE

- Fun resources for their children
- Feedback sharing: encourage repeat web visits and grow relationship with CSC.
- Be a marketing tool to increase awareness of CSC's offerings and drive visitorship to CSC

# Final Screen Design

## SITE SECONDARY OBJECTIVE

- Drive visitorship to its sister attractions
- Increase awareness of revenue-generating products/facilities (eg: workshops, membership, party/group packages, gift shop and restaurant etc) to drive sales and to encourage online ticketing (admission tickets and membership).

# Final Screen Design

A screenshot of the Science Centre Singapore website's desktop version. The header features a red 'KID STOP' sign with a cartoon character. Below the header, there are three main sections: 'Offering the freshest of fruits and vegetables. Learn all about food, while having fun eating it!' with a 'more' link; 'We have attractive packages for schools, corporates and big groups.' with a 'more' link; and 'Family and friends share a meal at Food Stop, BBQ, a KidStop restaurant Dining' with a 'more' link. Below these are 'Parent Site' and 'Visit Also' buttons. The main content area features a 'SCIENCE CENTRE singapore' logo, a 'OMNI THEATRE' section, and a 'Waterworks' section. At the bottom, there are 'Follow us' and 'Support us' sections, along with links for 'HOME', 'ABOUT US', 'EXHIBITION GALLERIES', 'EVENTS', 'PROGRAMMES', 'FUN STUFF', 'MEMBERSHIP', 'VISITOR'S INFO', 'FAQ', 'SITEMAP', and 'CONTACT US'.

## SITE SECONDARY OBJECTIVE

- Drive visitor ship to its sister attractions
- Increase awareness of revenue-generating products/facilities (eg: workshops, membership, party/group packages, gift shop and restaurant etc) to drive sales and to encourage online ticketing (admission tickets and membership).

Mobile Version

# ANALYTICS DASHBOARD - WEB APPLICATION

for In-House Product

## PROJECT BRIEF

CMS Dashboard to give Event Managers insights into Event Happening

## DURATION

Ongoing

## THE CHALLENGE

To build a single screen dashboard where event managers can get a quick insight to the ongoing event app engagement

## PLATFORM

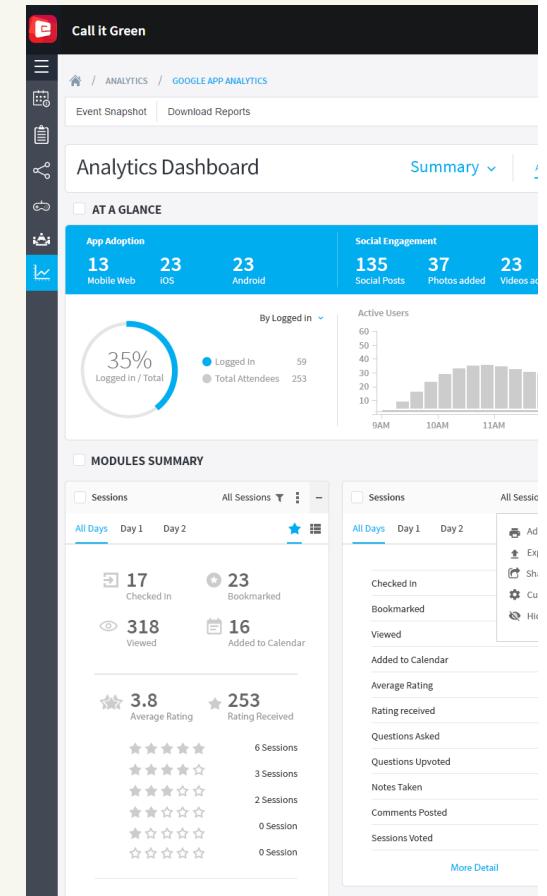

- Web Application

## MY ROLE

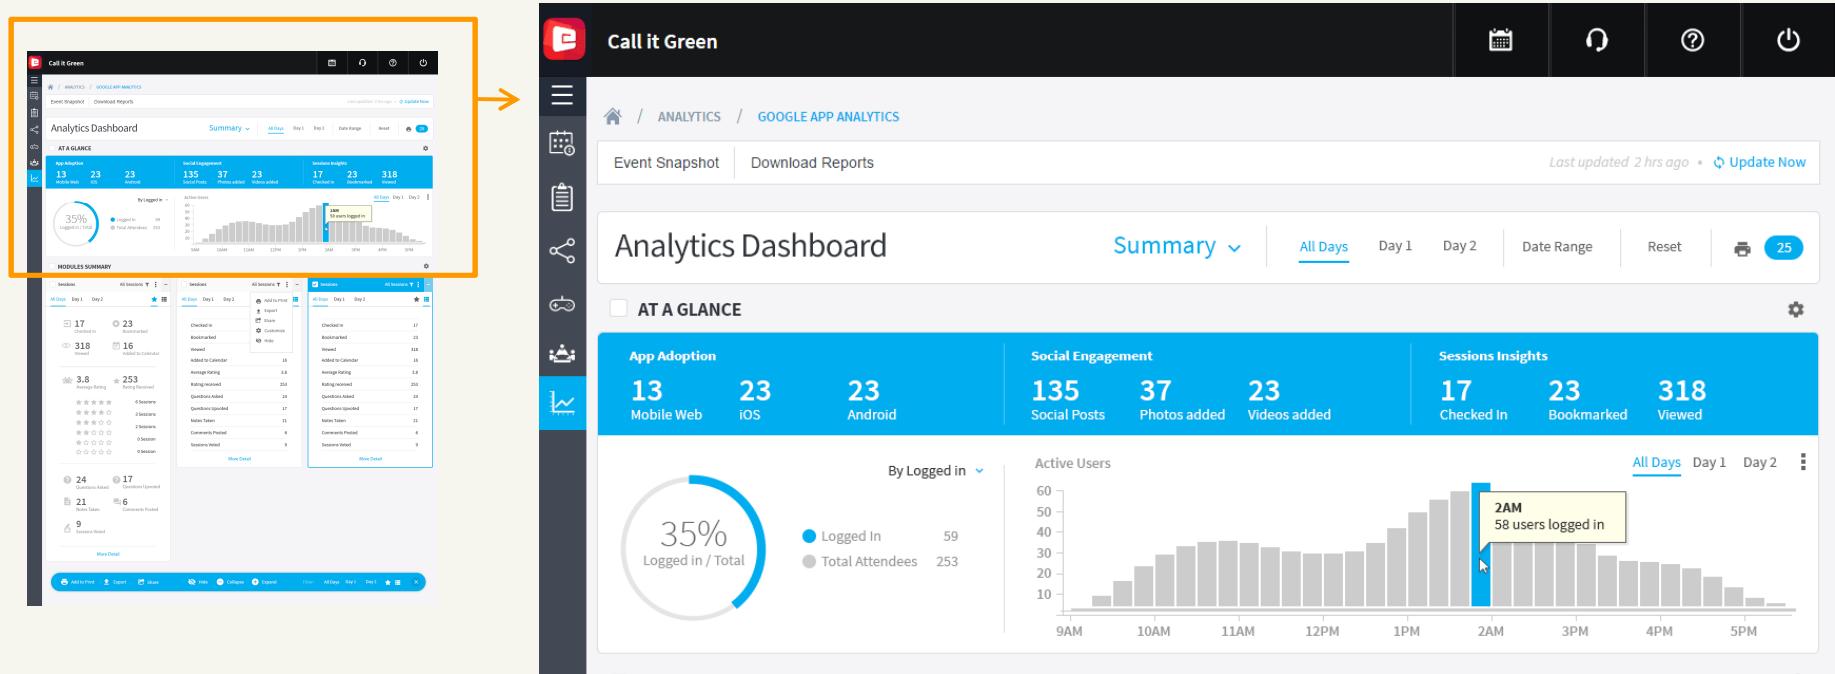

- Work with the development team and client to come up with a design solution and screenflow for the application

## OUTPUT

- Final Screen Design

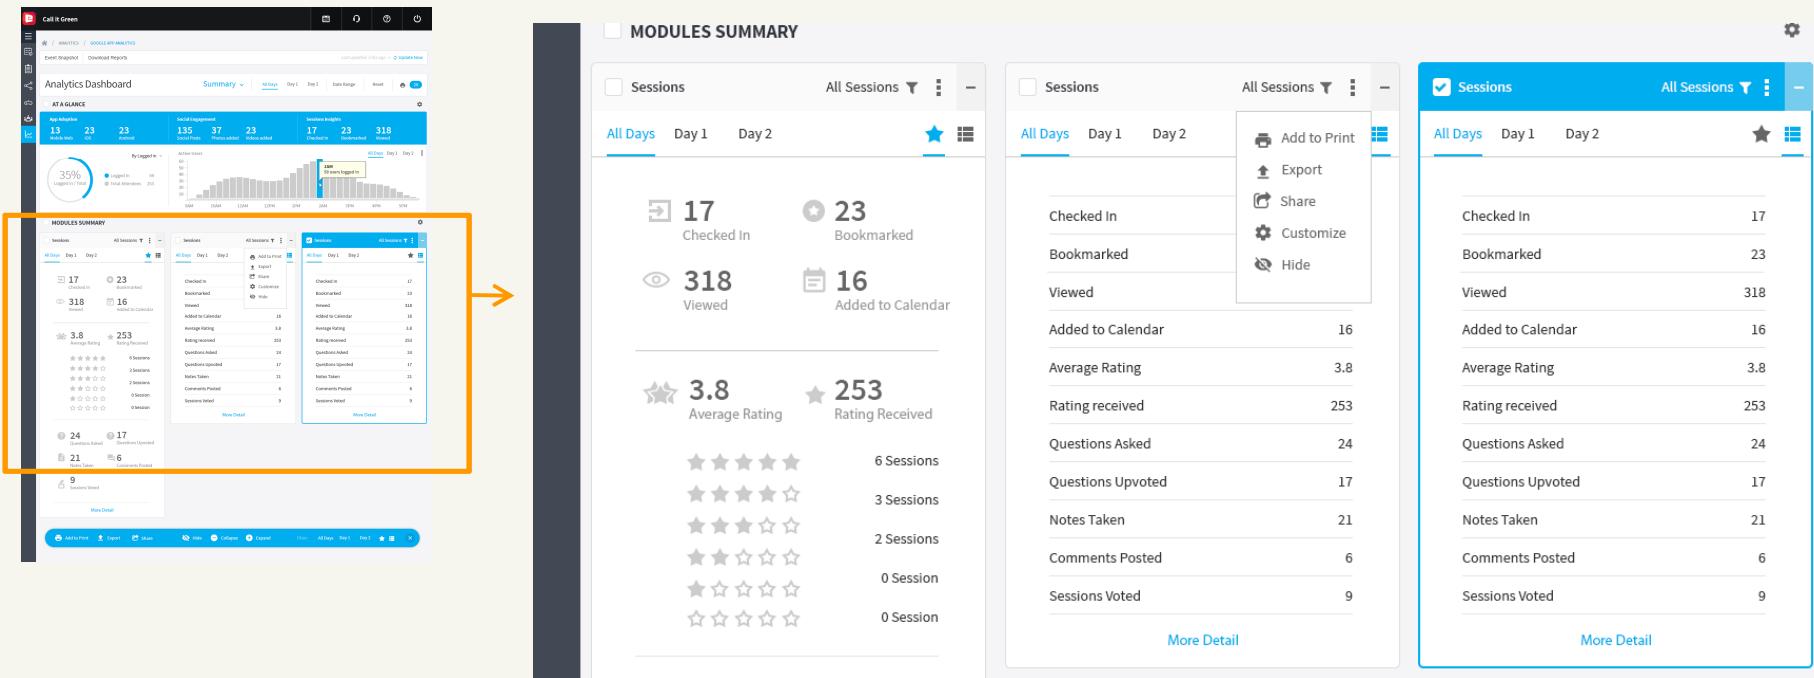

# Screen Design

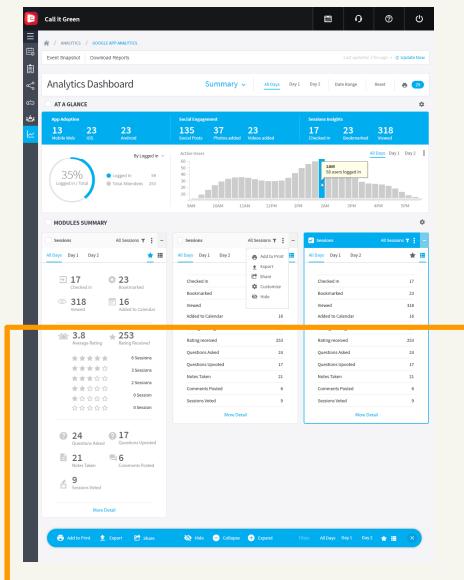

The screenshot displays the 'Analytics Dashboard' for the 'Call it Green' application. The interface is clean with a dark header and a light blue header bar. The main content area is organized into several sections: 'At a Glance', 'Analytics Dashboard', and 'Modules Summary'. The 'At a Glance' section is highlighted with an orange box and a callout, showing a donut chart with the text '35% Logged in / Total' and a table of statistics for App Adoption, Social Engagement, and Sessions Insights. The 'Analytics Dashboard' section below it contains a bar chart for 'Active Users' over time, with a callout at 2AM indicating '58 users logged in'. The 'Modules Summary' section on the left lists various metrics for different user actions like 'Checked In', 'Bookmarked', and 'Viewed'.

# Screen Design

# Screen Design

The screenshot shows a detailed breakdown of user activity across various modules and sessions. A specific section is highlighted with an orange box and arrow, indicating a context-sensitive action bar.

**AT A GLANCE**

- App Adoption: 13 sessions, 23 users, 23 sessions
- Social Engagement: 135 sessions, 37 users, 23 sessions
- Surveys Insights: 17 sessions, 23 users, 318 sessions

# TRANSPORT CLAIM APP

for Public Utilities Board, Singapore

## PROJECT BRIEF

This native mobile application provides highly-interactive user interface for PUB Officers to record the actual path travelled using on-device GPS, add supporting details, and export trips on a monthly basis

## DURATION

6 Months

## PLATFORM

- iOS: iPhone & iPad
- Android: Phone & Tablet

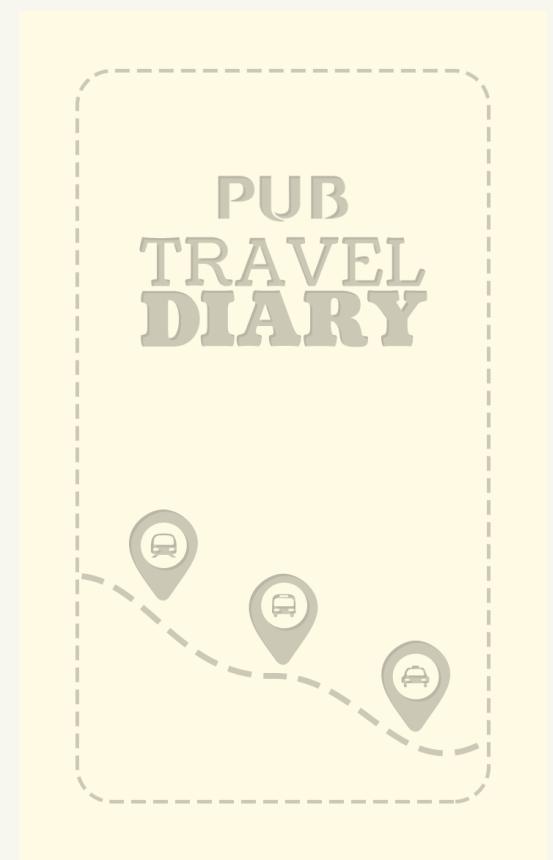

## MY ROLE

- Lead the analysis of Tender Requirement
- Propose a Design Solution which translated into a winning tender
- Oversee the Design of the App

## OUTPUT

Low Fidelity Wireframe in Google Slides

Since my former company is competing again for the renewal of this contract,  
I will not be able to share the screens for this app

# EVENT2MOBILE LOGO REBRANDING

for In-House Product

## PROJECT BRIEF

To design a new logo for our Flagship Mobile Application Product – Even2Mobile

## DURATION

3 Days

## THE CHALLENGE

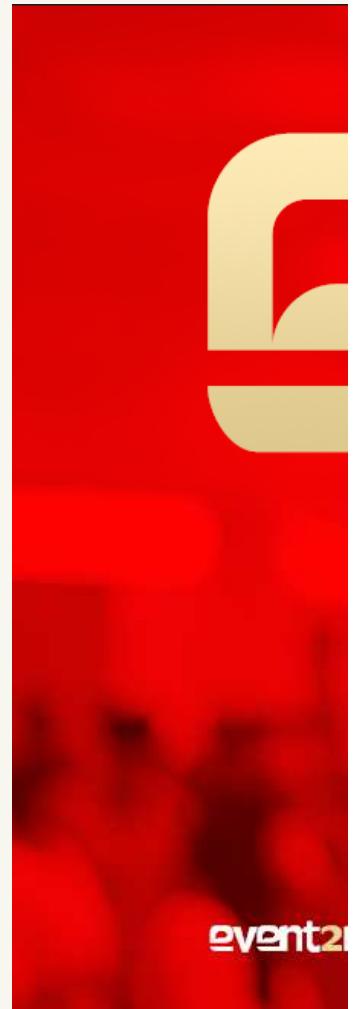

To rebrand a widely used Engagement App for Events and Conferences.

## MY ROLE

- To understand and come up with a new logo

## OUTPUT

- Presentation

# Presentation Slides

Logo Concept

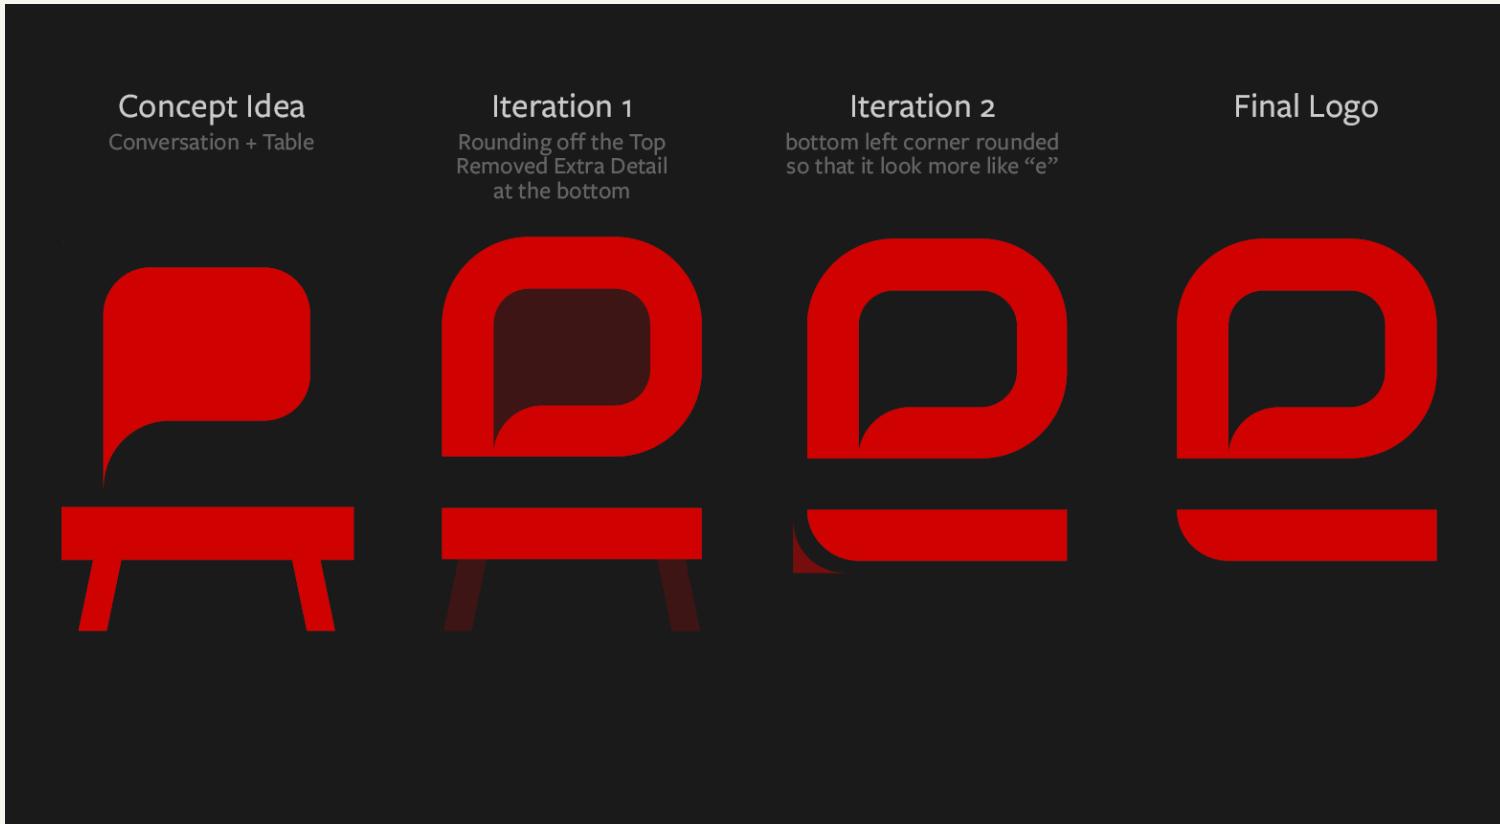

Event is all about...

Conversations

Tables

# Presentation Slides

# Presentation Slides

Logo in Different Form

Only Logo

Short Form

**e2m**

Long Form

**event2mobile**

Font Used

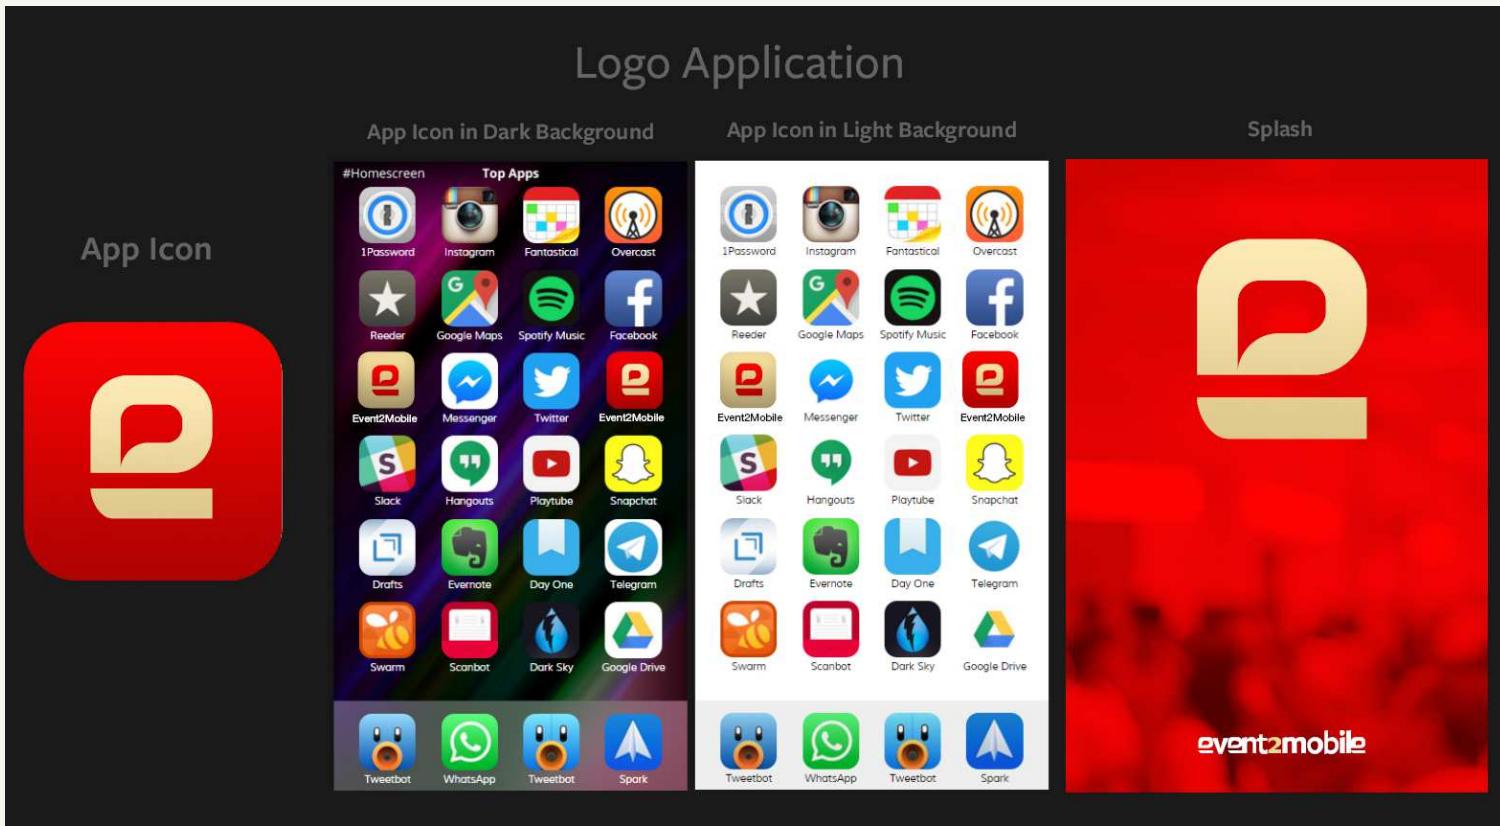

**Freight Sans Pro Medium**  
Clean, Legible & Premium (Typekit)

Colour Palette

Red - Stands out well both in Dark and Light Background.  
Gold - Provides a Classy Feel and also balance out the Red colour.

# Presentation Slides

## PRO BONO WORKS

for Associations and NGOs

### PROJECT OVERVIEW

A collection of Design Project which I do for free for the community association I am associated with and also for other organisations.

### DURATION

Ongoing

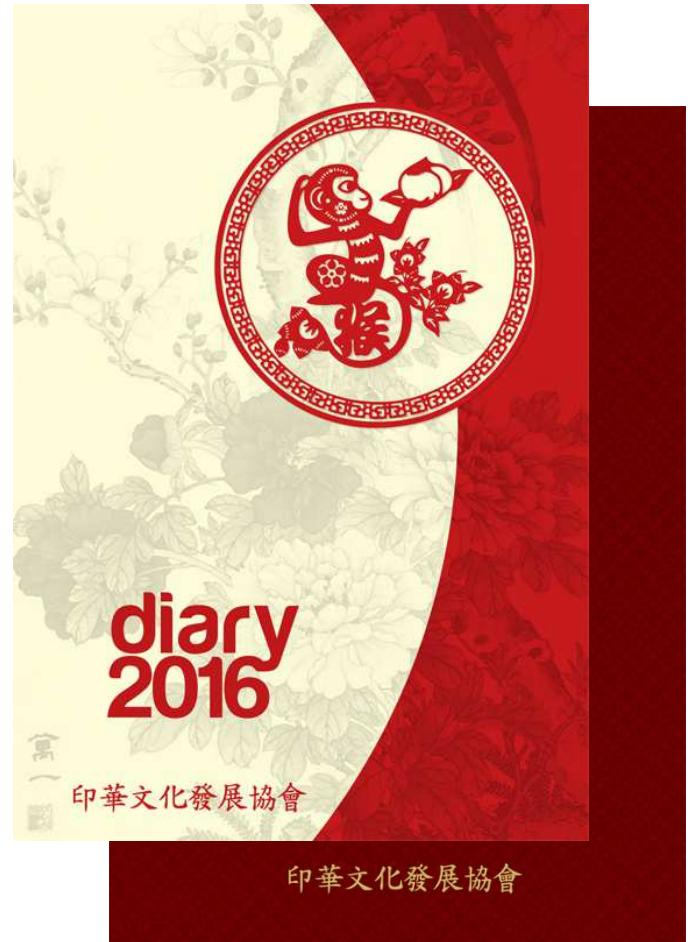

### PLATFORM

- Print

### MY ROLE

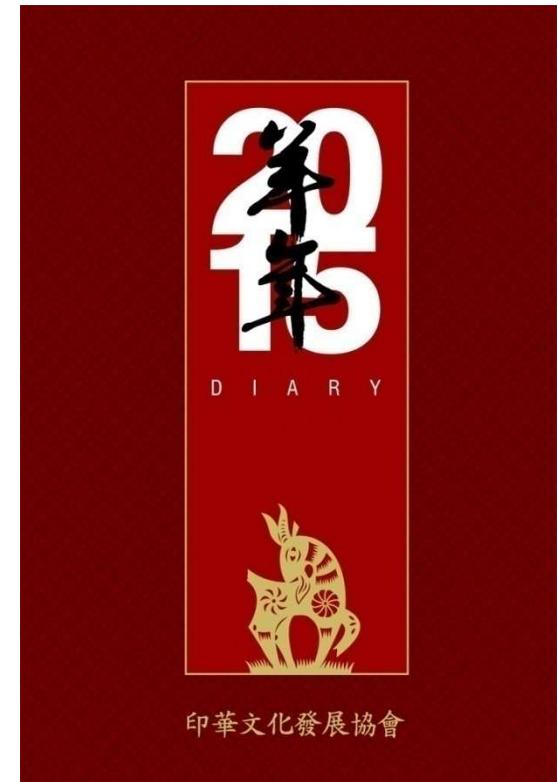

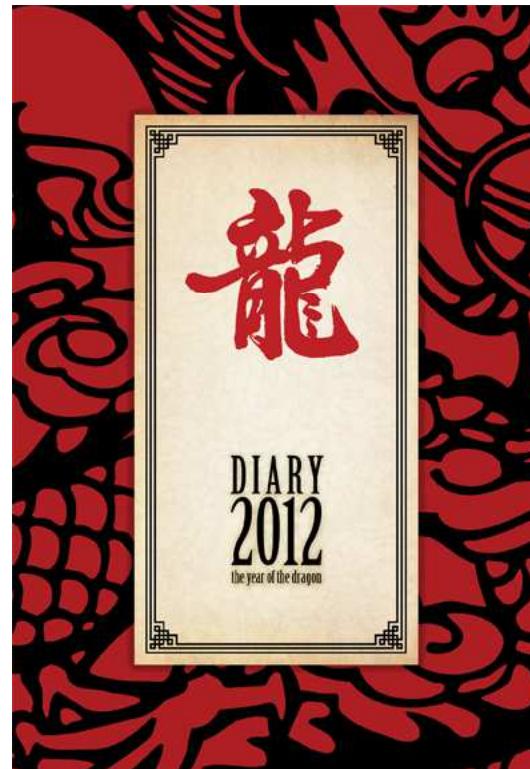

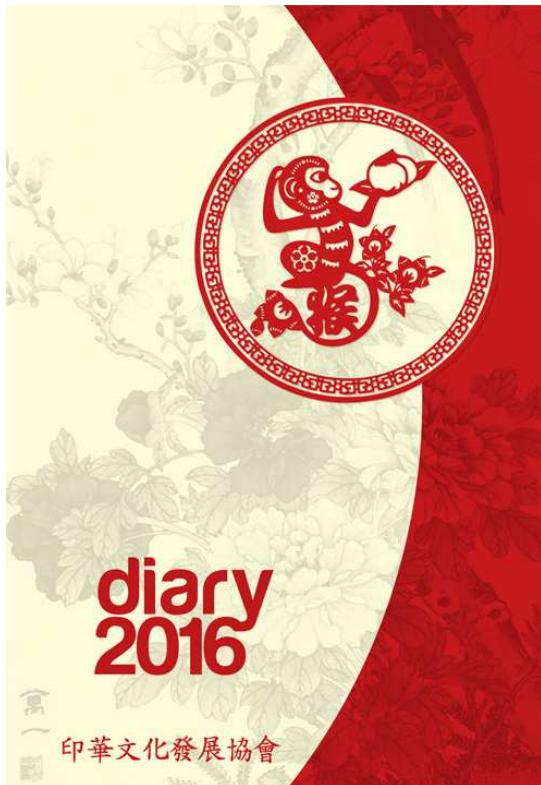

- Design Annual Diaries and other collaterals.

*Because it is not all about the Money!*

# Annual Diary Cover

Released by Indian Chinese Association for Culture, Welfare and Development

## Logos

Logo for an NGO that works to uplift dwellers living along side the Howrah River

## WILD PANDA

Logo for a team participating in a Walk organised by Toronto Zoo

Logo for an annual Chinese cultural event
